Potential home design on lots 45 or 46 for consideration. Ken handed out info and discussed 'oddities' of the design: wall construction, low pitched roof 4/12, metal roof, gate on CR 1940.

Discussion and guidance requested for ACC to go forward with decision. Items such as roof pitch to be 5/12, roof to be conventional, and consideration of residents were presented.

The consensus of the group was to reject the plan. Ken will contact the potential buyers/builders.

Adjourned at 5:20.
